§ 4. Variable Description

## Jump to Variable

1. [YEAR](#) (Survey year)
2. [SERIAL](#) (Household serial number)
3. [MONTH](#) (Month)
4. [HWTFINL](#) (Household weight, Basic Monthly)
5. [CPSID](#) (CPSID, household record)
6. [STATEFIP](#) (State (FIPS code))
7. [METRO](#) (Metropolitan and central/principal city status)
8. [FAMINC](#) (Family income of householder)
9. [PERNUM](#) (Person number in sample unit)
10. [WTFINL](#) (Final Basic Weight)
11. [CPSIDP](#) (CPSID, person record)
12. [CPSIDV](#) (Validated Longitudinal Identifier)
13. [AGE](#) (Age)
14. [SEX](#) (Sex)
15. [RACE](#) (Race)
16. [MARST](#) (Marital status)
17. [POPSTAT](#) (Adult civilian, armed forces, or child)
18. [NCHILD](#) (Number of own children in household)
19. [NCHLTS](#) (Number of own children under age 5 in hh)
20. [HISPAN](#) (Hispanic origin)
21. [EMPSTAT](#) (Employment status)
22. [LABFORCE](#) (Labor force status)
23. [EDUC](#) (Educational attainment recode)
24. [CEBOYCOTT](#) (Bought or boycotted product based on company social/political values)
25. [CESOCCONTACT](#) (Frequency saw/heard from friends or family )
26. [CESOCIALIZE](#) (Frequency talk with neighbors)
27. [CEPOLCONV](#) (Frequency discussing politics with friends or family)
28. [CEPUBOFF](#) (Contacted a public official )
29. [CESUPPWT](#) (Civic Engagement Supplement Weight)
30. [VLSTATUS](#) (Volunteer Status)
31. [VLHALLORG](#) (Annual hours volunteered in all organizations)
32. [VLNEIGH](#) (Worked with people in neighborhood since last September)
33. [VLDONATE](#) (Made donation to charity in past 12 months)
34. [VLRESP](#) (Self response flag for the Volunteer Supplement)
35. [VLNEWS](#) (How often read, watch or listen to news or information about political, societal or local issues in past year)
36. [VLVOTELOC](#) (Voted in last local elections in past year)
37. [VLMEETLOC](#) (Attended public meeting to discuss local issue in past year)
38. [VLMEMBER](#) (Membership in any group, organization or association in past year)
39. [VLMEMBERN](#) (Member of how many groups, organizations or associations in past year)
40. [VLVOLFO](#) (How often did the respondent volunteer)
41. [VLDONATEP](#) (Gave money or possessions worth more than \$25 to a political organization, party or campaign in past year)
42. [VLDISCUSS](#) (How often discussed political, societal or local issue with neighbors in past year)
43. [VLHELPN](#) (How often neighbors helped each other in past year)
44. [VLSOCMEDIA](#) (How often posted political, societal or local views on the internet or social media in past year)
45. [VLSPINT](#) (Supplement interview status recode)
46. [VLSUPPWT](#) (Volunteer Supplement Weight)

## Variable: "YEAR"

| Label:                  | Household serial number                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Variable Text:          | <p>SERIAL is an identifying number unique to each household in a given survey month and year. All person records are assigned the same serial number as the household record they follow. A combination of YEAR, MONTH, and SERIAL provides a within-sample unique identifier for every household in IPUMS-CPS; YEAR, MONTH, SERIAL, and PERNUM uniquely identify every person within a single sample.</p> <p>SERIAL is a new value generated for IPUMS-CPS and should not be confused with the household serial number created by the Census Bureau and included in the original CPS data.</p> |
| Concept:                | Technical Variables -- HOUSEHOLD                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| Variable Text:          | <p>HWTFINL is a household-level weight that should be used to generate statistics about households. The CPS uses a complex stratified sampling scheme, and HWTFINL must be used to produce unbiased household-level statistics from IPUMS-CPS basic monthly samples. For analyses of March Annual Social and Economic (ASEC) data, researchers should use HWTSUPP (This variable was renamed. Please see this renaming scheme for more information.). For individual-level analyses, researchers should use WTFINL, WTSUPP, or EARNWT.</p> <p>HWTFINL generally has the same value as WTFINL for the household head or reference person. Vacant housing units and households that could not be interviewed due to residents' absence or refusal to participate have a value of zero in HWTFINL; such sampled units were included in the public use CPS data beginning in 1988.</p> |

| Name:                   | CPSID                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Label:                  | CPSID, household record                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Variable Text:          | <p>CPSID is an IPUMS-CPS defined variable that uniquely identifies households across CPS samples. The first six digits of CPSID index the four-digit year and two-digit month that the household was first in the CPS. CPSID allows users to link a household record across samples, based on the 4-8-4 rotation pattern, by assigning a unique CPSID value based on a combination of household identifiers. CPSID will only ever appear for a maximum of 8 times, which is the number of times a household may be observed in the CPS survey (as indexed by MISH). In some cases, a household will appear fewer than 8 times due to migration, mortality, non-response, and recording errors. CPSID Extensive documentation about the creation of CPSID is available elsewhere.</p> <p>CPSID may also be used to link ASEC households that appear in the March Basic Monthly file to other months of CPS data. This linking is made possible by IPUMS through the creation of MARBASECIDH. For further information about the relationship between the March Basic and the ASEC, please see our additional documentation.</p> <p>Households that are part of the ASEC oversample (as indicated by ASECOVERH) may also be linked across ASEC samples, but not to the March or any other Basic Monthly sample. Note that MISH is not a reliable indicator of rotation pattern status for ASEC oversample records and should not be used to validate matches. For further information on linking records across ASEC samples, please see our additional documentation.</p> <p>Users may also want to see CPSIDP and CPSIDV for more information about linking individuals across time using a person-specific version of CPSID.</p> |
| Concept:                | Linking Variables -- HOUSEHOLD                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Variable Text:  | <p>STATEFIP identifies the household's state of residence, using the Federal Information Processing Standards (FIPS) coding scheme, which orders the states alphabetically.</p> <p>In 1973-1975 ASEC samples, all households in the Anaheim-Santa Ana-Garden Grove, CA METAREA are coded as Michigan-Wisconsin for STATEFIP in the original data. As there is insufficient geographic information in the public use data to determine which variable is in error, this mistake has been left un-recorded.</p> |

| Variable Text:          | METRO indicates whether a household resided in a metropolitan area. For households within metropolitan areas, METRO also indicates whether the housing unit was inside or outside of a central/principal city. The Census Bureau adds this information itself and does not collect it directly from respondents. |
| Concept:                | Geographic Variables -- HOUSEHOLD                                                                                                                                                                                                                                                                                |

| Variable Text:          | <p>FAMINC reports annual family income, in categories, of all persons related to the head of household/householder. For individuals who are not part of the householder's family, FAMINC reports the value for the householder's family.</p> <p>This measure includes the income of all members of the household who are 15 years of age or older. Income includes money from jobs; net income from business, farm or rent; pensions; dividends; interest; Social Security payments; and any other monetary income received by family members.</p> <p>Family income is collected as part of the basic monthly survey. At the end of the monthly labor force survey, respondents are asked to choose the category that represents the total combined income during the past 12 months for all members of the householder's family. The questionnaire says that "This includes money from jobs, net income from business, farm or rent, pensions, dividends, interest, social security payments and any other money income received" by members of the householder's family who are 15 years of age or older. Available categories change over time.</p> |

| Label:                  | Person number in sample unit                                                                                                                                                                                                                                                                          |
| Variable Text:          | PERNUM numbers all persons within each household consecutively (starting with "1") in the order in which they are listed in the original CPS data. When combined with YEAR , MONTH, and SERIAL, PERNUM uniquely identifies each person within IPUMS-CPS samples, though not across IPUMS-CPS samples. |

| Variable Text:          | WTFINL is the final person-level weight that should be used in analyses of basic monthly data.<br><br>When analyzing ASEC data, researchers should use the person weight ASECWt. For analyses including the variables EARNWEEK, HOURWAGE, PAIDHOUR, and UNION, researchers should use the EARNWT variable.<br><br>WTFINL is the second stage weight in CPS (see technical documentation). It is based on the inverse probability of selection into the sample and adjustments for the following factors: failure to obtain an interview; sampling within large sample units; adjustments to the known distribution of the entire population according to stage, age, sex, race, and Hispanic ethnicity; and allotting a weight of zero to populations not sampled in other monthly surveys (i.e., persons in the Hispanic oversample and members of the armed forces in ASEC samples). |

| Coder Instructions:     | CodesWTFINL is a 14-digit numeric variable with four implied decimals. That is, 12345678901234 should be interpreted as 1234567890.1234. The IPUMS command files automatically make the necessary adjustment, so no further adjustment is needed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

Variable: "CPSIDP"

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| Label:                  | CPSID, person record                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Variable Text:          | CPSIDP is an IPUMS CPS defined variable that uniquely identifies individuals across CPS samples. The first six digits of CPSIDP index the four-digit year and two-digit month that the household was first in the CPS. CPSIDP allows users to link a respondent appearing with a designated household roster line number (LINENO) across samples, based on the 4-8-4 rotation pattern, by assigning a unique CPSIDP value to this line number. CPSIDP will only ever appear for a maximum of 8 times, which is the number of times a household may be observed in the CPS survey (as indexed by MISH). In some cases, individuals will appear fewer than 8 times due to migration, mortality, non-response, and recording errors. Extensive documentation about the creation of CPSIDP is available elsewhere.<br><br>To get started using CPSIDP, users may want to sort their data file by CPSIDP and MISH to create a person-time file.<br><br>Users should note that it is important to verify CPSIDP linkages with AGE, SEX, and RACE. In some cases CPSIDP will result in erroneous links, which are due to errors in the source data. Cases with the same CPSIDP value may also have inconsistent responses across samples due to errors on the part of the respondent or in recording the response. Ultimately, it is up to the individual researcher to determine the acceptability of the linkages made using CPSIDP. IPUMS CPS also offers CPSIDV which creates linkages across months that have been validated based on demographic characteristics.<br><br>CPSIDP may also be used to link ASEC respondents who are in the March Basic Monthly file to other months of CPS data. This linking is made possible by IPUMS through the creation of MARBASECIDP. For further information about the relationship between the March Basic and the ASEC, please see our additional documentation.<br><br>Respondents who are part of the ASEC oversample (as indicated by ASECOVERP) may also be linked across ASEC samples, but not to the March or any other Basic Monthly sample. Note also that MISH is not a reliable indicator of rotation pattern status for ASEC oversample records and should not be used to validate matches. For further information on linking records across ASEC samples, please see our additional documentation. |

| Variable Text: | CPSIDV is an IPUMS CPS-created variable that uniquely identifies individuals across CPS samples. In addition to linking records across the CPS 4-8-4 rotation pattern, CPSIDV only makes links between those records whose SEX and RACE values do not change and whose AGE values change in expected ways over time.<br><br>CPSIDV is based on CPSIDP and so there are some structural similarities between them. The first six digits of CPSIDV are identical to CPSIDP - the four-digit year and two-digit month that the household was first in the CPS. Like CPSIDP, CPSIDV allows users to link a respondent appearing with a designated household roster line number (LINENO) across samples, based on the 4-8-4 rotation pattern.<br><br>Only records that link using CPSIDP that also have consistent race and sex values and age values that increase at least one but not more than two years over the course of the 16-month CPS rotation are linkable using CPSIDV. As a result, linkage rates using CPSIDV are slightly lower than those achieved using CPSIDP. However, linkages created with CPSIDV do not require the recommended post-linking verification steps recommended for use with CPSIDP links. Users should note that original, unharmonized values of age, sex, and race are used in the creation of CPSIDV. The procedure and validation criteria for creating CPSIDV are described in detail in A Holistic Approach to Validating Current Population Survey Panel Data. |

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|                         | <p>To get started using CPSIDV, users may want to sort their data file by CPSIDV and MISH to create a person-time file.</p> <p>CPSIDV may also be used to link ASEC respondents across years. This linking is made possible, in part, by IPUMS through the creation of MARBASECIDP. For further information about the relationship between the March Basic and the ASEC, please see our additional documentation. In addition, persons in the ASEC oversample (as indicated by ASECOVERP) can be linked across ASEC samples using CPSIDV. Note however, that ASEC oversample individuals cannot be linked to the March Basic or any other Basic Monthly survey using CPSIDV. Note also that MISH is not a reliable indicator of rotation pattern status for ASEC oversample records and should not be used to validate matches. For further information on linking ASEC oversamples using CPSIDV, please refer to our additional documentation.</p> <p>Users should take care when including the March Basic or ASEC as part of their linking. Respondents who are part of the ASEC oversample (as indicated by ASECOVERP) have a CPSIDV value of 0.</p> |
| Concept:                | Linking Variables -- PERSON                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

Up through 2002, the number of race categories ranged from 3 (white, negro, and other) to 5 (white, black, American Indian/Eskimo/Aleut, Asian or Pacific Islander, and other). Beginning in 2003, respondents could report more than one race, and the number of codes rose to 21, and then up to 26 codes in 2013. |       |       |     |       |     |       |     |                              |     |                           |     |            |     |                                |     |                             |     |             |     |                       |     |             |     |                                 |     |                       |     |             |     |                                 |     |                       |

| Variable Text:                                                                                                                                                          | POPSTAT reports the person's status in the population -- whether the person is an adult civilian, member of the U. S. armed forces, or a child.<br><br>The CPS is, in large part, a labor market survey, and is used to measure unemployment among the civilian labor force. (The U.S. unemployment rate reported by the Bureau of Labor Statistics excludes members of the armed forces.) Children (for ASEC samples under age 14 through 1979 and under age 15 beginning in 1980; for non-ASEC samples under 14 through February, 1989 and under 15 beginning March 1989) were not asked questions pertaining to economic activity. Members of the armed forces were asked only a small number of questions relating to demographic facts, migration, and income during the previous calendar year. POPSTAT provides a useful "filter" variable for excluding persons who had no responses for many of the survey questions. If children and/or members of the armed forces were excluded from the universe of a particular question, they appear only in the "not in universe" category of a variable. |       |       |   |                |   |              |   |       |

| Variable Text:          | NCHILD counts the number of own children (of any age or marital status) residing with each individual. NCHILD includes step-children and adopted children as well as biological children. Persons with no children present are coded 0.<br>Note that NCHILD is an IPUMS-derived variable using IPUMS-derived family interrelationships. Thus NCHILD may differ from any family information that comes from just the Census family definitions. See for example FTYPE, FAMKIND, and FAMREL for more on Census family units. |

| Label:                  | Number of own children under age 5 in hh                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Variable Text:          | NCHLT5 counts the number of own children age 4 and under residing with each individual. NCHLT5 includes step-children and adopted children as well as biological children. Persons with no children under 5 present are coded 0.<br>Note that NCHLT5 is an IPUMS-derived variable using IPUMS-derived family interrelationships. Thus NCHLT5 may differ from any family information that comes from just the Census family definitions. See for example FTYPE, FAMKIND, and FAMREL for more on Census family units. |

| Variable Text:  | HISPAN identifies and classifies persons of Hispanic/Spanish/Latino origin. Origin is ancestry, lineage, heritage, national group, or country of birth.<br><br>Prior to 2003, information was collected by asking, "What is the origin or descent of each person in this household?" and asking the respondent to select the appropriate category from a limited number of choices on a flashcard (including "another group not listed.") The choices included five to eight choices that would be classified as Hispanic, "Negro" and "Black," and a small number of European ancestry groups such as "German."<br><br>The primary intention of the question was to identify Hispanic respondents, rather than origin or descent for the general population. Beginning in 1976, the original CPS data preserved detail for only the Hispanic responses, with all others answers lumped together as "another group not listed" (relabeled "Not Hispanic" in IPUMS-CPS).<br><br>In 2003 and later years, respondents were asked, "Are you Spanish, Hispanic, or Latino?" rather than the broad query about origin or descent. Detailed information about Hispanic ethnicity was collected only from those who answered "yes" to this initial question. |

| Label:                  | Frequency saw/heard from friends or family                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Variable Text:          | CESOCCONTCT indicates how often a respondent heard from friends and family in a typical month over the past 12 months. The respondent was asked to include interactions whether in-person or not, and the respondent could choose Basically Every Day, A Few Times A Week, A Few Times a Month, Once a Month, Less Than Once a Month, or Not At All.<br>Users should be aware that the universes provided in the November 2011 and 2013 codebooks do not align with the data. In the codebooks, it is stated that CESOCCONTCT was only asked of persons living alone. This is not reflected in the data. In 2011 it is also stated that only outgoing rotation groups received the supplement questions. This also does not seem to be the case in the data. IPUMS-CPS has provided CESOCCONTCT universes as they are in the data.<br>This variable is part of the Civic Engagement Supplement. |

| Variable Text:          | CESOCIALIZE indicates how often a respondent talked with any neighbors in a typical month over the past 12 months. The question did not specify whether interactions had to be in-person or not. The respondent could choose Basically Every Day, A Few Times A Week, A Few Times a Month, Once a Month, Less Than Once a Month (only available in 2011 and onwards), or Not At All. This variable is part of the Civic Engagement Supplement. |
